

## LK2 Aviation Lube Kit Parts List

The LK2 Needle Fitting Lubrication Kit was designed to be a cost effective solution to lubrication problems on today's aircraft. In many cases, access to lube fittings with conventional lube equipment requires complex disassembly. The LK2's unique design allows technicians to choose and assembly the unit using various length tubes and angle tips. Unlike other kits, tip replacement is as easy as screwing in a new unit. Tips and extension tubes are available individually.

ALK-102 Handle

ALK-105 Tip Extension 2"

ALK-106 Tip Extension 4"

KY Coupler

ALK-103 Handle Adapter 6"
